# Ayda Frontpage Demo

Bubble front-end, Three.js interactive animation

The screenshot shows a landing page for Ayda. At the top left is the Ayda logo. Below it is a large, bold title: "Animated 3D, easy peasy". Underneath the title is a subtitle: "Animated & interactive 3D scenes. Design & add them anywhere. Anywhere you like!". A central feature is a 3D rendering of a white rocket launching from a blue base, with several colorful spheres (blue, orange, green) floating around it against a purple gradient background. Below the rocket, there's descriptive text: "Create true animated & interactive 3D illustrations right in your browser. Customise, add your logos and colours, and use it anywhere. No 3D expertise. No coding. All on the web." At the bottom right of the main content area is a small watermark: "No 3D expertise. No coding. All on the web."

This part of the screenshot shows another 3D scene. On the left, there's a small 3D model of a white and orange flying saucer. To its right is a 3D model of a green and yellow cube. Above the cube, text reads: "Get their attention. This fast." Below the cube, more text says: "Grab your user's attention, and hold it. Make it memorable & engaging. Better open rates, more views, higher SEO & improved conversion." On the right side of the screen, there's a 3D model of a brown and orange package tied with a blue and white striped ribbon. Above the package, text reads: "Use the power of true 3D". Below the package, more text says: "Unlike 3D-style imagery & video elsewhere - true 3D, rendered in real-time, lets your users play and interact on your site, and allows you to react right back." At the very bottom center, there's a small watermark: "One design in minutes".
